

SARAH BOYLE

Dear Team,

I'm excited to express my interest in opportunities within your team. With a strong background in high-ticket consultative sales, strategic client advisory, and fast-paced deal conversion, I'm confident I can bring immediate impact in both revenue generation and client experience.

In my current role as a Senior Strategic Advisor in a property buyers agency, I manage the full client journey from discovery through to close and onboarding. I consistently exceed KPI with a 40%+ monthly close rate on high-ticket advisory packages ranging from \$21,000 to \$64,000.

Since stepping into the role, I've consistently performed as a top revenue generator within the business while refining my ability to convert high-intent prospects through structured strategy sessions and consultative selling.

I've also achieved multiple internal company records, including most strategy sessions held in a month, most new clients in a quarter, most properties sold in a week, and highest weekly, monthly, and quarterly revenue generated. More recently, I was promoted to Senior Strategic Advisor (Team Lead), where I now also support, mentor, and help develop other advisors while continuing to perform at a high level myself.

Alongside my professional work, I've also been actively building my own property portfolio, having personally acquired three properties so far and continuing to expand my investments. This has strengthened my conviction in the work I do and allows me to bring a genuine, real-world perspective to client conversations around strategy, timing, and long-term wealth creation.

What continues to draw me to Dashdot is your clarity, performance culture, and focus on long-term wealth creation for clients. I thrive in environments where expectations are high, standards are clear, and execution is rewarded – and I'm particularly energised by the opportunity to operate within a structured, high-performance sales team.

I'm based in Perth, which allows me to effectively work across East Coast time zones, and I'm ready to contribute in a role where ownership, consistency, and results are the standard.

I'd love the opportunity to reconnect and explore how I could contribute to Dashdot's continued growth.

Warm regards,

Sarah Boyle
